RESPONSE TO NOTICE OF MISSING PARTS AND
CONDITIONAL PRELIMINARY AMENDMENT

Sir:

Applicants believe the enclosed submission constitutes a complete reply to the outstanding Notice of Missing Parts, mailed February 2, 2001.

The declaration contained in Appendix A fully complies with 37 CFR 1.63 – 1.69. The first two pages have been executed by the legal representative of Herbert W. Sullivan (deceased). All four pages have been executed by Clifford L. Hersh. Together, the four-page declaration satisfies the statutory requirements. Of specific note, both inventors are identified on page one of the declaration ("First Named Inventor" is listed as Clifford L. Hersh, and the statement "I believe that Herbert W. Sullivan was the first

inventor . . ." is made) as well as on page four (signature blocks identify both Mr. Hersh and Mr. Sullivan as inventors). Additionally, the citizenship, residence and mailing address of both inventors are identified on page four, and the citizenship, residence and mailing address of Joan Todd, legal representative of Mr. Sullivan, is identified on page two.

A check for \$65 to cover the late filing fee (37 CFR 1.136(a)) is enclosed. As the time for extensions has run, no extension fees are enclosed.

It is believed that no substitute drawings are included because a preliminary amendment, was electronically filed on Feb. 5, 2001, in accordance with 37 CFR 1.215(c) ("Patent application publication"). The Acknowledgement Receipt is attached as Appendix B and a paper copy of the electronically filed application is attached as Appendix C.

In an abundance of caution, Applicant makes the following conditional preliminary amendment in case the amendment electronically filed on Feb. 5, 2001, was not entered in the case.

Please conditionally amend the above-identified application as follows:

IN THE SPECIFICATION:

Replace the specification with the substitute specification contained in Appendix D. Appendix D is identical to the specification contained in Appendix C, which represents the electronically filed version of the application.

IN THE CLAIMS:

Replace the same-numbered pending claims with the claims contained in Appendix E. Appendix E is identical to the claims contained in Appendix C, which represents the electronically filed version of the application.

Cancel claims 9 through 14 without prejudice.

IN THE DRAWINGS:

Cancel Figures 1A through 24 without prejudice.

Appendix F represents the red-lined version of Figures 25, 26 and 27. Appendix G represents Figures 25, 26 and 27 in compliance with 37 CFR 1.84 ("Standards for Drawings"). Appendix G is identical to the drawings contained in Appendix C, which represents the electronically filed version of the application.

The marked-up version of the specification is contained in Appendix H. The marked-up version of the claims is contained in Appendix I.

The substitute specification, the amended claims, and the drawings do not contain any new matter.

Respectfully submitted,

Clifford L. Hersh and
Herbert W. Sullivan
